PROFILE

Full-Stack .NET Developer with commercial experience delivering client projects and supporting a B2B SaaS platform. I build web and mobile applications from requirements to release and production support: C#, ASP.NET Core, EF Core, SQL Server, REST API, JWT, SignalR, React/TypeScript, Docker, CI/CD with GitHub Actions and automated tests (xUnit, MSTest). I understand products from both the code side and the user side. Programmer diploma with honours.

EXPERIENCE

Full-Stack .NET Developer — Freelance, commercial projects for private clients — Mar 2025 — Present

- Deliver projects end-to-end: requirements, estimates, architecture, development, deployment and post-launch support; communicate directly with clients.

DentalClinic — web platform for a dental practice · *ASP.NET Core 9, EF Core 9, SQL Server, React, Docker*

- Built the platform to client requirements: public website, online booking, patient portal, CRM/admin panel and AI consultant; UI in 5 languages.
- Designed a layered architecture (Controllers → Services → Data), REST API, database migrations and indexes.
- Implemented JWT authentication, BCrypt, role-based authorisation, SignalR real-time notifications, background jobs (BackgroundService), rate limiting, CORS and global error handling.
- Integrated Google Gemini and ElevenLabs; containerised with Docker, set up GitHub Actions CI, Swagger/OpenAPI, automated tests and API/deployment docs.
- Provide post-launch support: log-based troubleshooting, fixes and release of updates.

Technical Support / Integration Support Specialist — AppXite (B2B SaaS) — Dec 2025 — Oct 2026

- Supported B2B customers of a SaaS platform in English and Russian (tickets, chat, email) using Jira and Zendesk.
- Reproduced and diagnosed issues through log and data analysis, isolating the problem before escalation; worked with developers to fix root causes.
- Verified REST APIs and integrations in Postman, troubleshot authorisation and data-exchange issues between systems; wrote SQL queries to check and correct data.
- Tested fixes before release, documented solutions and maintained the knowledge base.

Front Desk Receptionist — Crowne Plaza Limassol, Cyprus — 2020 — 2022

- Guest service in English, Greek and Russian: reservations, request handling and coordination between departments.

PROJECTS

Smart Route Planner · *PHP 8.1, JavaScript, PWA, ML, Docker, CI/CD*

- Route-planning PWA: optimisation (Nearest Neighbor + 2-opt), OSRM routing, map, weather, POI; MLP neural network and K-Means implemented from scratch.
- 132 automated tests (unit, HTTP integration, browser flow), CI matrix, production smoke tests. Demo · GitHub

FleetManagement · *C#, WPF/XAML, EF6, SQL Server, MSTest* · **GitHub**

- Role-based desktop application for managing a vehicle fleet and routes; specification, UML diagrams, tests.
