

VIOLETTA NICOLAOU

FULL-STACK .NET DEVELOPER

Volgograd, Russia | Remote full-time | Phone: _____ | violettanicolaou@gmail.com | github.com/ViolettaNcl

PROFESSIONAL PROFILE

Full-stack developer and honors graduate in Information Systems and Programming with experience building deployable .NET and PHP applications. Portfolio includes a client-requested dental clinic CRM, a tested machine-learning route planner, and a WPF fleet-management system. Strong in REST APIs, SQL, authentication, testing, Docker, and CI/CD; multilingual, disciplined, reliable, and quick to learn.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core 9, .NET Framework, REST APIs, EF Core / EF6, JWT, SignalR, PHP 8.1+, OOP

Frontend & Data: HTML5, CSS3, JavaScript, XAML / WPF, Leaflet.js, Chart.js, SQL Server, SQL, LINQ, migrations

AI / ML: MLP/backpropagation, softmax regression, K-Means, cross-validation, Gemini and OpenAI / Anthropic integrations

Engineering: Git/GitHub, Docker Compose, GitHub Actions, unit and HTTP integration tests, Swagger/OpenAPI, Postman

SELECTED PROJECTS

DentalClinic - Full-Stack Website & CRM

2026

ASP.NET Core 9 | EF Core | SQL Server | JavaScript | SignalR | Gemini | Docker

- Built a deployable platform for a real dental practice, covering public booking, patient accounts, administration, reporting, and operational workflows.
- Designed layered REST APIs with JWT roles, BCrypt, EF Core migrations, SignalR notifications, background reminders, Gemini/ElevenLabs integrations, and five-language localization.

Smart Route Planner - ML & Geospatial Web App

2026

PHP 8.1+ | JavaScript | Docker | GitHub Actions | OSRM | OpenStreetMap | PWA

- Implemented a multi-layer perceptron with backpropagation, softmax baseline, and K-Means clustering from scratch, with confusion matrices, precision/recall/F1, and five-fold cross-validation.
- Combined TSP heuristics and real-road routing with geocoding, weather, POIs, a bilingual PWA, graceful fallbacks, 132 automated tests, token-bucket rate limiting, CI, and Docker builds.

FleetManagement - Desktop Operations System

2025-2026

C# | WPF / XAML | .NET Framework 4.7.2 | Entity Framework 6 | SQL Server | MSTest

- Developed a role-based desktop system for vehicles, drivers, routes, and mileage; added SQL scripts, tests, build automation, architecture, requirements, deployment, and user documentation.

PROFESSIONAL EXPERIENCE

Independent Translator

2019-Present

- Provide Russian-English-Greek translation and interpretation, preserving meaning and tone while managing assignments independently and meeting deadlines.

Front Desk Receptionist - Crowne Plaza Limassol, Cyprus

2020-2022

- Supported international guests through check-in/check-out, reservations, inquiries, issue resolution, and coordination with hotel departments.
- Used Russian, English, and Greek to interpret conversations and reduce communication barriers while maintaining accuracy, professionalism, and composure.

EDUCATION

Moscow International College of Digital Technologies 'TOP Academy'

Moscow | 2026

Specialty 09.02.07 - Information Systems and Programming | Qualification: Programmer

- Diploma with honors; qualification awarded by commission decision on 25 June 2026 and diploma issued on 20 July 2026.

LANGUAGES

Languages: Russian (fluent), English (fluent), Greek (fluent), French (beginner)
