 [Portfolio / CV](#)

 **Languages:** Russian / English / Greek - fluent • French - beginner

PROFESSIONAL PROFILE

Junior Full-Stack .NET Developer with an honours programming diploma and a strong hands-on portfolio. I build end-to-end applications with C#, ASP.NET Core, EF Core and SQL Server, including REST APIs, JWT authentication, role-based access, real-time updates with SignalR, background services, Docker, CI/CD and automated testing. My main project is a dental-clinic web platform built for a real client. Seeking a Junior C#/ .NET / ASP.NET Core / Full-Stack .NET Developer role.

TECHNICAL STACK

Backend

C#, .NET, ASP.NET Core 9, Web API, Entity Framework Core, PHP 8.1+

Frontend

JavaScript, TypeScript, React, Next.js, HTML5, CSS3, WPF, XAML, PWA

Data

SQL Server, Entity Framework 6, relational data modeling, migrations

Engineering

Git, GitHub Actions, Docker, REST, JWT, BCrypt, SignalR, CI/CD, Swagger/OpenAPI

Testing / ML

MSTest, unit & integration testing, browser/E2E testing, MLP, K-Means

PRACTICAL DEVELOPMENT EXPERIENCE

Independent Full-Stack Developer - DentalClinic | *Client project · 2026*

- Designed and built a full-stack dental-clinic web platform: public website, online booking, patient portal, CRM/admin dashboard and AI assistant.
- Backend: ASP.NET Core 9, C#, REST API, layered Controllers → Services → Data architecture, EF Core 9, SQL Server, migrations and indexes.
- Implemented JWT authentication, BCrypt, role-based authorization, SignalR real-time notifications, BackgroundService, rate limiting, CORS and global error handling.
- Integrations: Google Gemini and ElevenLabs; 5-language interface; Docker, Swagger/OpenAPI, architecture/API/deployment documentation and automated checks.

SELECTED PROJECTS

Smart Route Planner | *PHP 8.1+ · JavaScript · PWA · ML · CI/CD*

- PWA route planner with stop-order optimization (Nearest Neighbor + 2-opt), real-road OSRM routing, interactive map, weather and POI data.
- Implemented an MLP neural network with backpropagation and K-Means from scratch; added model evaluation, cross-validation, confusion matrix and precision/recall/F1.
- 132 automated tests, HTTP integration and browser-flow checks, CI matrix, Docker and production smoke tests.

FleetManagement | *C# · WPF/XAML · .NET Framework · EF6 · SQL Server · MSTest*

- Role-based desktop application for managing vehicles, drivers and routes with a structured data layer, SQL Server and automated tests.
- Produced the technical specification, architecture, class/sequence/state diagrams, developer documentation and database script.

 **GitHub:** [ViolettaNcl/FleetManagement](#)

Developer CV Website | *Next.js 16 · React 19 · TypeScript*

- Multilingual responsive CV/portfolio website (EN/RU/EL) with accessible semantics, adaptive navigation and downloadable PDF CV.

EDUCATION

Moscow International College of Digital Technologies “TOP Academy”
Moscow · graduated July 2026
09.02.07 Information Systems and Programming - Programmer qualification, diploma with honours (red diploma).

ADDITIONAL EXPERIENCE

Independent Translator (2019 - Present)
Front Desk Receptionist, Crowne Plaza Limassol (2020 - 2022)
Multilingual professional communication, client service, reservations and cross-department coordination.
